

E-TEC WORK BENCH

e-tec is an all-purpose bench for today's active technical application environments. e-tec's 48" wide and 72" wide bench can stand alone and has the capability to create back to back workstations—unique to the industry.

e-tec benches can be placed back to back and connected with the use of one common organizer frame. Back to back offers a cost savings solution to any technical environment.

WORKSTATION OPTIONS

- Organizer frames are place-able from 19", 34", 41" & 48" high.
- e-tec offers a height place-able worksurface from 27" to 42", allowing technicians to customize their working environment.
- Each bench has a 1000 lbs. weight capacity.
- All worksurfaces are ESD Rated Laminates.
- ESD paint is a standard for all e-tec Frames (Frame in Black & Accessories in Cool Grey)
- Ergonomically designed to allow technicians access to tools and instruments.
